BMJ

Our flagship journal, *BMJ*, is an international weekly medical journal for doctors. *BMJ* provides a thought-provoking and intelligent treatment of major health issues and has established itself as an integral part of the fabric of the medical industry since its inception over 150 years ago.

Our award winning website, bmj.com, is updated daily, providing almost one million users per month with free access to original scientific research and selected past *BMJ* journal articles. bmj.com is easy to navigate and features four channel pages which cover News, Education, Research and Comment.

BMJ Clinical Evidence

BMJ Clinical Evidence is unlike any other evidence based point-of-care tool. It provides evidence as well as a complete and systematic review of the most important and costly conditions that practices and hospitals have to deal with every day.

clinicalevidence.bmj.com

BMJ Clinical Evidence:

- Covers over 640 clinical questions and 3000+ interventions
- Includes evidence-based research sourced from over 10,000 peer-reviewed references
- Links directly to PubMed and Cochrane abstracts
- Provides Drug Safety Alerts, International Guidelines and Updates and Awareness alerts
- Constantly updated with new evidence

BMJ BestTreatments

BMJ BestTreatments gives clear, straightforward information to patients about thousands of health and medical treatments.

besttreatments.bmj.com

BMJ BestTreatments:

- Has all the facts on the causes and symptoms of 180 common conditions
- Answers questions about the benefits and side effects of more than 1,500 treatments
- Assesses the risks and benefits of 23 common operations and tests
- Is written in simple, accessible language to help patients understand their condition
- Helps doctors provide their patients with a trusted source of information

BMJ Learning

BMJ Learning is an interactive website designed to support doctors, nurses, medical students and other health care practitioners with their personal development, learning and continuing medical education (CME) needs.

learning.bmj.com/international

BMJ Learning:

- Now has a new and improved website design, as well as additional features designed to improve users' online experience
- Contains over 440 interactive online clinical scenarios, case studies and topics
- Allows users to plan and record learning according to individual personal development plans
- Provides video modules giving users a chance to test themselves in simulated environments

 The **Drug and Therapeutics Bulletin (DTB)** is a short and easy-to-read monthly bulletin, offering all healthcare practitioners, students and researchers practical and impartial advice on treatment. It is available online and in print.

dtb.bmj.com

BMJ Drug and Therapeutics Bulletin:

- Provides informed and unbiased assessments of drugs and other treatments
- Comments on how drugs and treatments should be used
- Assesses the place of drugs and treatments within an overall management context
- Reviews evidence and gives practical advice on the overall management of disease
- Has a website that benefits from a fourteen year archive

 **OnExamination.com** is an online learning revision resource for medical students.

OnExamination.com contains high quality questions based on typical exam themes which are reviewed continuously to ensure accuracy.

www.onexamination.com/international

OnExamination.com

- Provides immediate explanations of answers
- Has adapted learning which personalises the site to individual educational needs
- Contains over 1300 questions, 2000 + 'extended matching question' items, as well as over 900 'multiple choice' questions and more than 130 'short answer' questions
- Gives picture quizzes including X-rays and ECGs
- Details score analysis so that students can gauge performance strength against their peers and also recognise their strengths and weaknesses
