

Drug and Therapeutics Bulletin

14 years of online archives. And more.

Making a difference to prescribers in practice

- Access to all DTB content from the latest issue to the archive back to 1994
- Sophisticated searching, email alerting, RSS feeds and full text links from cited references
- Interactive services such as My Folders for quick access to articles that you have viewed previously and My Searches to save and re-use useful searches

The screenshot shows the dtb website interface. At the top, there is a navigation menu with links for Home, Independence, Subscriptions, Archive, Register, and Contact us. A search bar is located on the right. Below the navigation, the page title is "Drug and Therapeutics Bulletin (DTB)". The main content area displays articles from November 2007, including "How safe are antipsychotics in dementia?" and "What role for fluticasone in asthma?". Below this, there is a section for the year 2007 with a grid of article teasers for each month from July to October. A "Free trial" section on the right offers a 30-day trial of DTB and access to the whole site. A "Subscribe to DTB today!" button is located at the bottom right of the screenshot.
